Note on holding a pen/pencil

- The age of 3 years is a good age for your child to start holding pencils or crayons.
- However, your child's hand muscles are still developing so it's best to teach your child gradually and patiently.
- There are several ways to hold a pencil. One of them is illustrated below.
 - o The pencil should be held between the thumb and index finger, with the pencil resting on the middle finger.
 - o The fingers should be placed 1-2 cm away from the pencil tip.

- Over a period of time you can help improve your child's handwriting by making her practice fine motor skills. Activities that would help in doing this include tracing in the sand, coloring, playing with stacking toys and cutting paper with safety scissors.
